GENERAL CHARACTERISTICS

The North Caucasus Federal District (NCFD) is one of the eight federal districts of the Russian Federation.

It is located in the South of the European part of Russia, in the central and eastern part of the North Caucasus. The NCFD has land borders with Abkhazia, Azerbaijan, Georgia, and South Ossetia, and a water border with Kazakhstan.

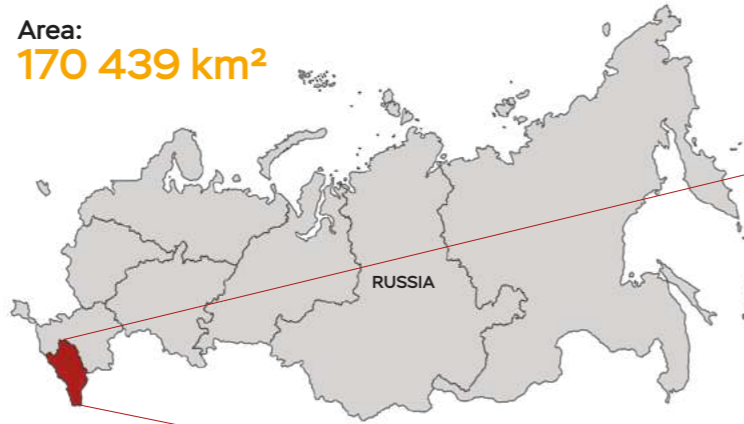

Pyatigorsk is the administrative center of the district. It is the only one of the centers of the Russian Federation districts, which is not the administrative center of the subject included in the NCFD. Also, Pyatigorsk is not the largest city in the district. However, it is the logistics center of the largest agglomeration in the North Caucasus Federal District called the Caucasian Mineral Waters.

NCFD is characterized by a record population growth for the Russian federal districts. The North Caucasus Federal District is the only district where Russians do not make up the vast majority of the population (less than a third). In six out of seven regions of the district, the titular nation prevails over the Russians.

The North Caucasus Federal District has favorable conditions for the development of the agricultural and industrial complex, tourism, the sanatorium and resort sector, the electric power industry, the mining and manufacturing sectors of industry.

Area:
170 439 km²

Population:
9 967 301

THE NORTH CAUCASUS FEDERAL DISTRICT INCLUDES 7 REGIONS:

STAVROPOL TERRITORY
Area: **66 160 km²**
Population: **2 792 796**
Climate: **Mild**
Temperature: **-1.5° - +23.5° C**

DAGESTAN REPUBLIC
Area: **50 270 km²**
Population: **3 133 303**
Climate: **Mountain**
Temperature: **-1.3° - +24° C**

CHECHEN REPUBLIC
Area: **17 300 km²**
Population: **1 492 992**
Climate: **Mountain**
Temperature: **-1.5° - +27.7° C**

KARACHAY-CHERKESS REPUBLIC
Area: **14 277 km²**
Population: **465 357**
Climate: **Mild**
Temperature: **-2° - +19.1° C**

KABARDINO-BALKAR REPUBLIC
Area: **12 500 km²**
Population: **869 191**
Climate: **Mountain**
Temperature: **-2.2° - +26° C**

REPUBLIC OF INGUSHETIA
Area: **3 123 km²** Population: **515 564**
Climate: **Mountain** Temperature: **-2.1° - +23.4° C**

REPUBLIC OF NORTH OSSETIA-ALANIA
Area: **7 987 km²** Population: **693 098**
Climate: **Mountain** Temperature: **-1.9° - +24.9° C**

The largest cities of the North Caucasus Federal District are:

Makhachkala
Population: **604 600**

Stavropol
Population: **458 200**

Grozny
Population: **326 400**

Vladikavkaz
Population: **298 800**

Nalchik
Population: **239 600**

Khasavyurt
Population: **148 300**

Pyatigorsk
Population: **145 500**

Cherkessk
Population: **127 500**

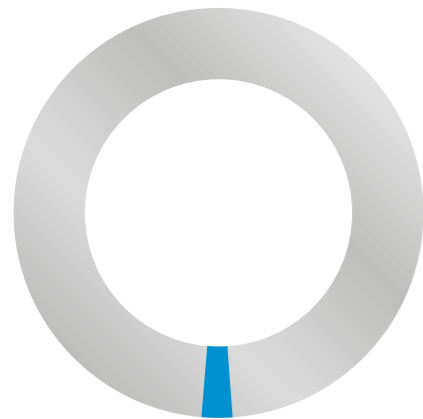

Kislovodsk
Population: **127 300**

STAVROPOL AND MINERALNYE VODY

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

The territory of the region belongs to the extremely sparsely forested regions of the country; the forest area is

129.9 thousand hectares

WATER RESOURCES:

225 rivers **38** lakes
58 reservoirs, numerous ponds, and a developed network of meliorative canals

LAND RESOURCES:

The Stavropol Territory is located mainly in the steppe and semi-desert natural zones. The relief of the region comprises almost all landscapes of the country: semi-deserts with salt marshes and sands, vast steppes, forest-steppes, deciduous and mixed forests. Soils are mostly black earth and chestnut.

Total area of agricultural land
5 787.3 thousand hectares

Arable land
3 995.7 thousand hectares
 (69% of the total area of agricultural land)

Pastures
1 628.1 thousand hectares

Natural gas **50.5** bcm Oil **91.9** million tons Mineral water **>130** springs

Construction materials (expanded clay feedstock, brick and tile feedstock, sands for concrete and silicate products, building sands, sand and gravel materials) **751.2** million m³

PRIORITY AREAS OF DEVELOPMENT

INVESTMENT ACTIVITIES

The key sectoral priorities for the strategic development of the region are:

- agriculture and industry
- chemical industry
- plastics and composites
- transport and logistics
- health and wellness
- high-tech components
- tourism
- creative clusters

The investment portfolio of the Stavropol Territory contains 269 investment projects that continue to be implemented on the territory of the region, with a total value of about 4.5 billion US dollars.

TOP PRIORITY PROJECTS:

CROP FARMING

Pomes
(apple, pear, quince, etc.)

138.4 centners per hectare

Vine plantations

112.2 centners per hectare

Vegetables

145.4 centners per hectare

Cereals and legumes

37.4 centners per hectare

Gourds food crops

93.6 centners per hectare

Potatoes

180.2 centners per hectare

Wheat

37.4 centners per hectare

Sunflower

19.4 centners per hectare

LIVESTOCK INVENTORY

Cattle

278.4 thousand

Goats & sheep

1374.3 thousand

Hogs

381.1 thousand

Poultry

20978.5 thousand

Milk production

502.2 thousand tons

Meat production

405.9 thousand tons

Eggs production

775.7 million pieces

Honey production

0.7 thousand tons

Wool production

5088 tons

CREATION OF FERTILIZERS AND NITROGEN COMPOUNDS PRODUCTION CLUSTER

DEVELOPMENT OF TOURIST AND RECREATIONAL POTENTIAL OF THE CAUCASIAN MINERAL WATERS REGION

CREATION AND DEVELOPMENT OF AGRO-INDUSTRIAL CLUSTER

DEVELOPMENT OF GREEN ENERGY

CONSTRUCTION OF A MULTIFUNCTIONAL WHOLESALE DISTRIBUTION CENTER-FRUIT STORAGE IN THE STAVROPOL TERRITORY

CREATION OF INDUSTRIAL TECHNOLOGY PARKS

DEVELOPMENT OF PETROCHEMICAL INDUSTRY

TERRITORY OF ADVANCED SOCIAL AND ECONOMIC DEVELOPMENT «NEVINNOMYSSK».

A special legal regime for doing business has been established in order to create favorable conditions for attracting investments

The Stavropol Territory is Europe's largest producer of mineral fertilizers and artificial sapphires. In terms of manufacturing of polymer products, glass products, bottling of mineral waters and drinks, the region occupies a leading position in Russia.

Stavropol Territory enterprises produce **100% melamine, 95% carbamide-ammonia mixture, 90% artificial sapphires, 60% aerosols, 50% complex NPK fertilizers, a third of all plows and electricity meters.**

In order to attract investments in the economy of the Stavropol Territory, the region provides preferences to the investment projects initiators. The effect of this support measure is shown by the ratio of attracted investments to the tax benefits granted – for each ruble of state support, **11.28 RUBLES** of investments came to the region.

AGRICULTURE

Agriculture is highly developed in the Stavropol Territory. The largest share in the total structure of the region's exports belongs to the grain industry, oil and fat products, as well as meat and dairy products.

In 2021, farms of all categories of the Stavropol Territory manufactured products worth

4.5 billion US dollars

Crops share production in the gross agricultural output is

73.8%

Livestock share production in the gross agricultural output is

26.2%

TOURISM INDUSTRY

The natural resources of the Stavropol Territory are the basis for the provision of ecological tourism services. In the resort parks, there are mineral water drinking galleries and rooms, recreational and architectural structures, numerous historical and cultural monuments, unique plants grow in the parks.

There are more than **100** natural monuments, reserves and wildlife sanctuaries here.

The Stavropol Territory retains its leading position in the country's health resort and health services market and is one of its largest resort regions. Currently, there are:

190 spas and health resorts

>250 tourist organizations

THE CAUCASIAN MINERAL WATERS

The Caucasian Mineral Waters is the main tourist center with unique recreational resources for health-improving recreation.

>100 sources of healing mineral water, which differ in their chemical and gas composition at the **LAKE TAMBUKAN** where therapeutic mud is mined (12 000 m³).

Thanks to natural healing resources, each resort city in the region has its own medical profile and treats specific diseases and disorders:

KISLOVODSK – blood circulation, respiration, and nervous system.

ESSENTUKI – biliary tract, liver, metabolic disorders, gastrointestinal tract.

PYATIGORSK – musculoskeletal system, nervous system, digestion, skin, and gynecological disorders.

ZHELEZNOVODSK – digestive system, kidneys, urinary tract, metabolic disorders.

CHECHEN
REPUBLIC

GENERAL INFORMATION

Territory: **16 671 km²**
 Capital: **Grozny**

National composition: **Chechens, Russians.**
 Religion: **Islam and Christianity**

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

2 urban districts **15** municipal districts **360** rural settlements

The geostrategic position is characterized by proximity to the "North-South" international transport corridor and the direct access to a branch of the international transport corridor "Transib".

LOGISTICS INFRASTRUCTURE

The transport system of the republic comprises all main types of transport:

- **AIR**
(Grozny international airport)
- **PIPELINE**
- **RAIL**
- **AUTOMOTIVE**

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

The total area of forest fund lands located on the territory of the Chechen Republic is **352.7 thousand hectares**, the main purpose of which is not so much in the use of operational reserves of valuable wood, but in the performance of environmental, water protection, land protection, recreational, health and other environmental functions. Forests are mainly represented by beech, hornbeam, oak, ash, maple and shrubs (hazel, barberry, etc.).

WATER RESOURCES:

Water resources concentrated in rivers, lakes, reservoirs, glaciers, and in the subsurface. The longest rivers are:

Terek	218 km	Sunzha	205 km
Argun	125 km	Belka	83.2 km
Dzhalka	82.5 km	Martan	61 km
Gekhi	57 km	Aksai	57 km
Fortanga	34.7 km	Assa	32.4 km

MINERAL RESOURCE BASE

Deposits of limestone, gypsum and clay (cement feedstock), building stone, brick and expanded clay, clays and loams, limestone (production of building lime), sand and gravel mixtures, building and silicate sands, dolomites, mineral pigments and bituminous sandstones, marble-like and shell limestones usable as a facing material, roofing slates, bentonites and bentonite-like clays, sandstones for glass production are found.

AS OF 2021:

explored oil reserves **9.067** million tons explored natural gas **1518** million m³

There are several climatic zones on the territory, each with its own unique landscape and wildlife – from arid temperate continental to cold and humid highlands.

SPECIALIZATION

The priority sectors of the Chechen Republic economy include **five industry sectors**:

- agro-industrial complex
- tourism
- construction
- digital economy
- production of building materials

CROP FARMING

Pomes
(apple, pear, quince, etc.)
94 centners per hectare

Vine plantations
82.3 centners per hectare

Rice
28.2 centners per hectare

Stone Fruits (plum, cherry, sweet cherry, etc.)
79.1 centners per hectare

Gourds
160.7 centners per hectare

Corn
34.9 centners per hectare

LIVESTOCK INVENTORY

Goats & sheep
284.5 thousand

Cattle
253 thousand

Poultry
1243.7 thousand

Wool production
591 tons

Meat production
24.5 thousand tons

Eggs production
120.1 million pieces

Milk production
291.2 thousand tons

Honey production
0.1 thousand tons

Also priority sectors of the Chechen Republic economy include **three social and infrastructure sectors**:

- transport
- logistics complex
- healthcare and education

INVESTMENT ACTIVITIES

The republic offers ready production sites and infrastructure facilities for investors. Special attention is paid to the creation and development of special economic zones (SEZ):

SEZ "VEDUCHI"
CONSTRUCTION OF AN ALL-SEASON TOURIST AND RECREATIONAL COMPLEX

SEZ "GROZNY" WITH AN INDUSTRIAL PARK:
THE DEVELOPMENT OF INDUSTRIAL PRODUCTION

In addition, major projects are planned for implementation on the territory of the republic:

TRANSPORT AND LOGISTICS SECTOR DEVELOPMENT

AGRO-INDUSTRIAL COMPLEX

CONSTRUCTION MATERIALS CLUSTER

RECONSTRUCTION AND CONSTRUCTION OF THE INTERNATIONAL AIRPORT 'GROZNY' NAMED AFTER A. A. KADYROV

The republic provides a number of benefits for investors in priority sectors of the economy:

- TAX INCENTIVES FOR INITIATORS OF INVESTMENT PROJECTS
- STATE GUARANTEES OF THE CHECHEN REPUBLIC
- PROVISION OF INVESTMENT SITES
- PROVISION OF GUARANTEES

EXPORTERS AND EXPORT-ORIENTED SMES

TRUBPLAST LLC

3/25-polyethylene pipes with a diameter of 20–1200 (for water, gas and sewerage lines, as well as irrigation hoses of different diameters).

Pipes for heating system with thermal insulation made of polyurethane foam in a polyethylene sheath (various diameters).

Israillov A. A. +7 (928) 290-47-97

'TEPLOSTROYPROEKT-S' LLC

Automated transportable block-modular boiler.

Vertical gas heating boilers with thermal power from 29 kW to 500 kW, RIM series.

Water-heating boilers for building heating, RIM MAX type, heat output up to 12 MW.

Horizontal steel tanks with volume from 1 m³ to 100 m³.

Metal structures of steel vertical cylindrical tanks with volume from 100 m³ to 10,000 m³.

MIP GREENBAR LLC

Micro farms for growing greens.

City farm that allows growing herbs, greens, and vegetables. Due to the modular, multi-level design, GreenBar showcases can be installed in the kitchens of restaurants, canteens, trading floors, shopping centers, small shops. Farms use the principle of aero and hydroponics, so the plants do not need soil – they get all the necessary substances from the nutrient solution, and LEDs replace sunlight. GreenBar operates on its own software platform for precision farming, remote maintenance of plants from seed to harvest.

REPUBLIC
OF DAGESTAN

GENERAL INFORMATION

Territory: 50 300 km²
Capital: Makhachkala
National composition: Avars, Dargins, Kumyks, Lezgins, Laks, Russians, Azerbaijanis, Tabasarans, etc.
Religion: Islam

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

10 urban districts **41** municipal districts
1 municipal site

LOGISTICS INFRASTRUCTURE

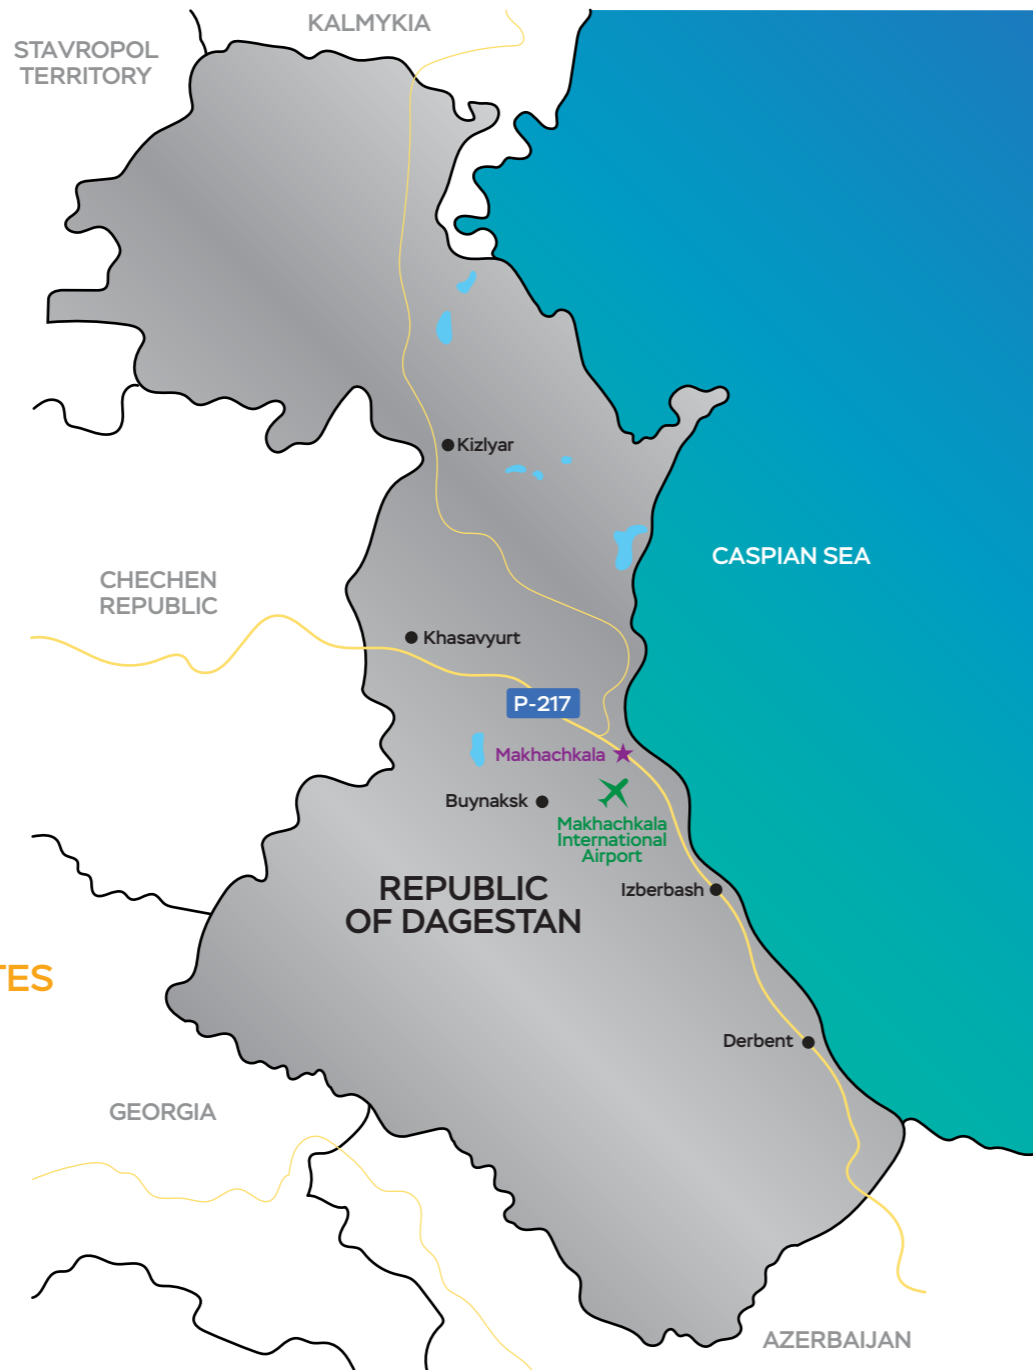

The republic has direct access to international sea routes connecting Transcaucasia, Central Asia, Kazakhstan and Iran.

Transport corridors:

- **RAILWAY**
- **AUTOMOBILE**
(the largest route P-217 'Kavkaz'),
- **AIR**
- **SEA AND PIPELINE ROUTES**
of federal and international level, including international 'West - East' and 'North - South' corridors

INTERNATIONAL AIRPORTS

MAKHACHKALA

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

The total forest area is **660.5** thousand hectares

20% forest reserves

The predominant trees on the territory are: birch, oak, pine, hornbeam and beech.

WATER RESOURCES:

The republic has an extensive hydrographic network including rivers, canals, lakes, swamps, the Caspian Sea and glaciers. **In total**, there are **4 374** rivers with a total length of 25 973 km, 92% of the rivers are mountainous and only 8% flow in the foothills and plains. The largest rivers are Terek, Sulak, and Samur.

The most important resource is the Caspian Sea located between Europe and Asia. **The length of the Caspian Sea** coastline within the borders of the republic is about **530 km**.

LAND RESOURCES

agricultural lands
4 344.5 thousand hectares
(86.4% of the area of the republic)

MINERAL RESOURCES

Raw hydrocarbons (on the territory of the republic and the Russian part of the Caspian Sea shelf adjacent to Dagestan):

oil and gas condensate
509 million tons
 including **169** million tons on land

natural gas
877 billion m³
 including **377** billion m³ on land

Other reserves are also available:

raw construction materials
32 million m³
 (structural, saw and facing stones, gypsum, glass, mineral paints, molding materials)

inert construction materials
455.1 million m³
 (sand, expanded clay, bricks and tiles)

Fisheries, production of construction materials, ceramics, glass and glass products, manufacturing of industrial greenhouses, as well as the chemical industry, precision engineering and radio electronics are well developed.

Two territories of advanced socio-economic development:
KASPIYSK **DAGESTANSKIE OGI**

CROP FARMING

Pomes
 (apple, pear, quince, etc.)
105.2 centners per hectare

Vine plantations

242.8 million pieces

Milk production
932.5 thousand tons

Honey production
1.2 thousand tons

- INDUSTRIAL PARK "KIP PROM KASPIY"
- INDUSTRIAL PARK "PHOTON" IN MAKHACHKALA
- INDUSTRIAL PARK "CRYSTAL CITY" IN KASPIYSK
- PRIVATE PARK "INDUSTRIAL PARK DAGDIZEL" IN KASPIYSK
- MUNICIPAL PARK "NOGAI PROM" IN THE NOGAI DISTRICT
- INDUSTRIAL PARK "VALLEY OF NEW IDEAS AND TECHNOLOGIES (TYUBE)".

The following priority projects are being implemented (scheduled for implementation):

- DEVELOPMENT OF THE CASPIAN CLUSTER
- DEVELOPMENT OF THE FRUIT AND VEGETABLE CLUSTER IN SOUTH DAGESTAN
- DEVELOPMENT OF THE TRANSPORT AND LOGISTICS CLUSTER
- DEVELOPMENT OF THE GLASS CLUSTER
- DEVELOPMENT OF THE SHOE CLUSTER

This specialization determines the structure of the republic's exports: the largest share is occupied by food products and raw materials for their production, engineering products, mineral products, products of the fuel and energy complex.

RESIDENTS ENJOY VARIOUS TAX BENEFITS, a special legal regime for doing business has been established in order to create favorable conditions for attracting investments.

EXPORTERS OF AGRICULTURAL PRODUCTS

MAKHACHKALA MEAT PROCESSING PLANT JSC

Makhachkala Meat Processing Plant JSC is established in 1907. It is a large enterprise with a full production cycle: from the slaughter of cattle and small cattle to further processing, cooling, freezing, storage, and packaging of meat

Makhachkala Meat Processing Plant JSC currently produces 36 types of sausages, 14 types of meat and chicken delicacies, as well as canned meat.

It has an international certification for cattle slaughter and its export outside the Russian Federation, and an international certificate HASSP ISO 22000. The enterprise has an attested (certified) slaughter shop. The capacity of the cattle slaughter shop is up to 25 tons per shift, and the capacity of the small cattle slaughter shop is up to 20 tons per shift.

KIZLYAR URITSKY MEAT PROCESSING PLANT LLC

Kizlyar Uritsky Meat Processing Plant LLC (KUMK LLC) was established in 1997. Every year, the plant's products are exhibited at the country's largest food exhibitions, tasting competitions, and presentations, where over the past 20 years they have won many awards and diplomas, as well as received high praise and recognition at professional tastings in Moscow and St. Petersburg. The awards include 8 gold and 12 other various medals. Today KUMK LLC is an enterprise equipped with modern production lines made in Russia, Austria, and Germany. The company is constantly upgrading equipment and increasing production capacity. In 2019, the construction was completed and a sausage shop with a capacity of up to 10 tons per day was commissioned.

Nurudin Omarov +7-903-482-96-21

kumk.ru

BATYR-BROILER LLC

One of the main enterprises in the Republic of Dagestan for slaughtering and processing poultry meat, established in 2015

The enterprise produces a wide range of products: poultry carcasses, semi-finished products, and sausages, more than 100 varieties. The company operates modern high-tech equipment manufactured in France, Germany, Belgium, and Poland. Batyr-Broiler LLC is certified for the export of poultry meat to Azerbaijan and Morocco.

KIZLYARAGROKOMPLEKS JSC

Key activities of Kizlyaragrokompleks JSC:

- production, collection, storage, processing, and sale of a wide range of milk and dairy products, skimmed milk powder, children's, dietary, and other food products
- production and sale of mineral water and soft drinks
- production and sale of finished canned products made from meat, poultry meat, meat by-products

To provide own raw materials sources, Kizlyaragrokompleks JSC created three livestock complexes Chernyaevka, Nekrasovka, and Agrofirma Elita LLC.

Since 2009, Kizlyaragrokompleks JSC began to produce its goods under a new brand – Darman. In 2017-2018, a rice processing plant with a capacity of 60 tons per shift was put into operation.

Magomed Tukuev +7 (87239) 2-30-04
halal@darman.ru

NIVA LLC

The new rice processing plant Niva LLC processes from 140 to 200 tons of raw rice per day, which is the equivalent of more than 40 thousand tons of finished rice products per year. The total area of the enterprise equipped with the most modern technology is 1900 square meters. The plant consists of a receiving department, production, auxiliary, weighing and packing, and compressor shops, as well as a warehouse for finished products. Equipment from South Korea, Germany, and China is installed. A modern method of laser photo-separation is used, which allows separating rice feed into several fractions. Paddy rice from the field enters the plant, goes through calibration and drying, and then goes either to a warehouse or for processing. There is also an experimental selection and seed-growing center, which is able to prepare about 300 tons of seed material per day.

REPUBLIC
OF INGUSHETIA

GENERAL INFORMATION

Territory: **3 600 km²**
Capital: **Magas**

National composition: **Ingush, Chechens, Russians**
Religion: **Islam and Christianity**

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

5 urban districts **4** municipal districts
36 rural settlements

LOGISTICS INFRASTRUCTURE

THE NORTH CAUCASIAN RAILWAY

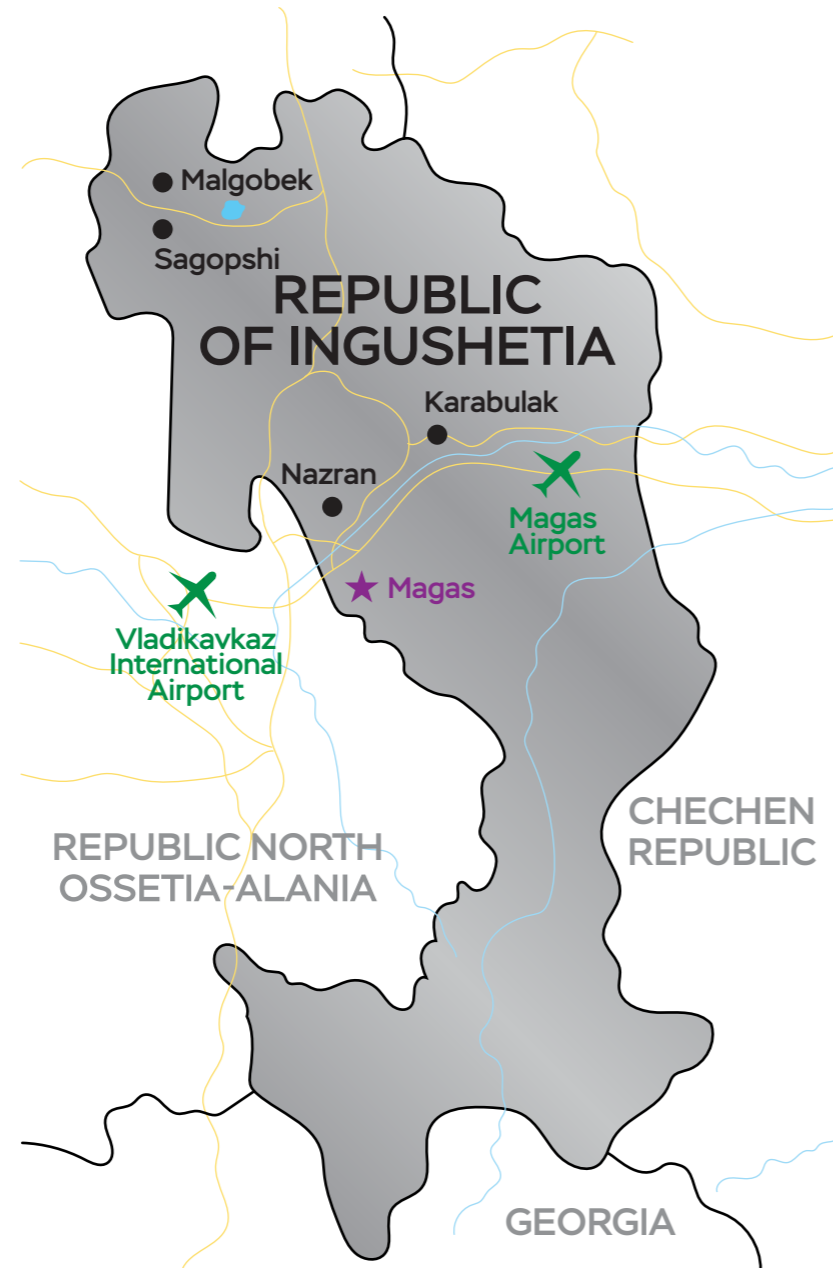

providing access to Rostov-on-Don and Baku, as well as the federal highway Baku-Mineralnye Vody-Rostov-on-Don-Moscow run through the territory of the Republic of Ingushetia.

THE GEORGIAN MILITARY HIGHWAY

runs through the Main Caucasian Range, a section of which passes through the territory of Ingushetia.

REGIONAL AIRPORT

MAGAS

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

Forests occupy **84 thousand hectares** and are an important natural resource. They are mainly represented by mixed broad-leaved forests, including such valuable tree species as beech, oak, and plane tree.

WATER RESOURCES:

The rivers **Terek** and **Assa** cross the republic from south to north, and **Sunzha** – from west to east. The ecological state of the reservoirs is one of the best in the region.

LAND RESOURCES:

The Republic of Ingushetia is located in three natural soil and climate zones: steppe with black soils, occupying the northern part of the republic, forest-steppe with a predominance of medium-thick black soils, occupying the southern part, and mountain-meadow with mountain-meadow soils.

The presence of these land resources determined the agricultural and industrial specialization of the republic:

Agricultural land	140.3 thousand hectares	Arable land	81.7 thousand hectares
--------------------------	--------------------------------	--------------------	-------------------------------

ESTIMATION OF MINERAL RESERVES

Oil: 8.5 million tons
Combustible gas: 50 million cubic meters
(minor reserves)

Construction and facing stones, brick and tile raw materials, building sand, sand and gravel materials: 15.4 million cubic meters

Glass feedstock: 3.6 million tons.

The relief of the territory of the republic is elevated, consisting of mountain ranges separated by valleys and gorges. **The length of the Caucasus Mountains** on the territory of the republic **is about 150 km.**

THE HIGHEST POINT IS TABLE MOUNTAIN
(2,993 m above sea level).

SPECIALIZATION

The agricultural and industrial complex is the basis of the republic's material production. The main priorities are:

CROP FARMING

Pomes
(apple, pear, quince, etc.)

210.8 centners per hectare

Cereals and legumes

31.2 centners per hectare

Vine plantations

53.6 centners per hectare

Corn

38.1 centners per hectare

Sunflower

10.4 centners per hectare

LIVESTOCK INVENTORY

Cattle

65.4 thousand

Meat production

4.3 thousand tons

Goats & sheep

292.9 thousand

Eggs production

23.6 million pieces

Poultry

348.7 thousand

Milk production

109 thousand tons

Wool production

509 tons

Honey production

0.2 thousand tons

Ingushetia has implemented the largest horticultural complex in the NCFD: **GARDEN GIGANT INGUSHETIA LLC**

Cultivation of apples, apricot, peaches, nectarine, and pear on the area of 1 060 hectares, yield 55-60 thousand tons, one-time storage of agricultural products about 61 thousand tons, commercial processing – 40 tons per hour

The industry is represented by the following sectors:

- manufacture of food products
- manufacture of other non-metallic mineral products
- manufacture of rubber and plastic products
- metallurgical production and manufacture of fabricated metal products.

INVESTMENT ACTIVITIES

Residents enjoy various tax benefits, a special legal regime for doing business has been established in order to create favorable conditions for attracting investments. The following priority projects are being implemented (scheduled for implementation) on the territory of the Republic:

ALUMINUM CLUSTER

GREEN ENERGY

AGROKOMBINAT SUNZHA GREENHOUSE COMPLEX

ALL-SEASON TOURISM AND RECREATION COMPLEX ARMKHI

DZHEIRAKH INDUSTRIAL PARK

SMALL AND MEDIUM BUSINESSES

At the end of 2021, there were about **4.9 thousand SMEs** in Ingushetia, which provide jobs for **6.3 thousand people**. As a result of the implementation of federal and republican support programs, the number of people employed in SMEs has increased by **10.5%** since the beginning of 2021, and the number of SMEs – by **13.7%**.

TOURISM INDUSTRY

The development of tourism is based on the creation of a competitive tourist and recreational cluster and the formation of cultural, educational, active, health-improving, and ecological types of tourism.

>2000 cultural heritage sites

35 tourist routes including routes for mountaineering and sport climbing

2 nature reserves **1** wildlife sanctuary

In recent years:

SPECIAL ECONOMIC ZONE OF TOURIST AND RECREATIONAL TYPE WAS CREATED, WITHIN IT, A PROJECT IS BEING IMPLEMENTED TO CREATE AN ALL-SEASON TOURIST AND RECREATIONAL COMPLEX "ARMKHI"

A NUMBER OF EXCURSION ROUTES COVERING THE ENTIRE TERRITORY OF THE REPUBLIC WERE DEVELOPED

THE ALL-SEASON TOURIST CENTER "INGUSHETIA" AND THE TOURIST INFORMATION CENTER OF THE REPUBLIC OF INGUSHETIA WERE CREATED

NEW GUEST HOUSES AND MINI HOTELS WERE OPENED

SPA TREATMENT WAS ORGANIZED

DEVELOPMENT INSTITUTIONS AND EXECUTIVE AUTHORITIES WHERE A FOREIGN PARTNER CAN APPLY FOR ASSISTANCE

KABARDINO-BALKAR
REPUBLIC

GENERAL INFORMATION

Territory: **12,500 km²**
Capital: **Nalchik**

National composition: **Kabardians, Russians, Balkars**
Religion: **Islam and Christianity**

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

3 urban districts **10** municipal districts

LOGISTICS INFRASTRUCTURE

automobile roads **9 103 km** railways **134 km**

INTERNATIONAL AIRPORT

NALCHIK

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

The forest zone consists mainly of deciduous forests. The total area of forest lands is **323 100 hectares**. The main species of trees is the oriental beech.

WATER RESOURCES:

The water resources of the Kabardino-Balkar Republic are represented by rivers, lakes, ponds, glaciers and groundwater. The total length of the river network is **5 470 km** and it consists of **2 172 rivers and streams**. All the main water arteries of the republic belong to the basin of the Terek River, the largest and most water-abundant in the region.

LAND RESOURCES:

According to the peculiarities of its structure and the nature of the terrain, **the territory is** divided into three parts: **33% flat, 16% foothill and 51% mountainous**.

To the north of the Main Caucasian Range, at a distance of 3–11 km, the Lateral Range stretches, which forms the greatest peaks of the Caucasus:

Elbrus 5 642 m west. peak 5 621 m east. peak	Dzhanghi-Tau 5 059 m
Dykh-Tau 5 204 m	Pushkin Peak 5 034 m
Koshtan-Tau 5 152 m	Kazbek 5 033 m
Shkhara 5 069 m	Mizhirgi 5 025 m

The Lateral Range is composed of crystalline schists, gneisses, and granites of different ages.

ESTIMATION OF MINERAL RESERVES

Tungsten: **541.6 thousand tons**

Molybdenum: **164.1 thousand tons**

Gypsum, anhydrite, cement feedstock, molding materials, bentonite clays, carbonate rocks for lime burning: **297.1 million tons**

Building stones, saw stones, perlite raw materials, pumice and volcanic ash, sand for concrete and silicate products, building sand, sand and gravel materials: **484.5 million cubic meters**

The territory of the republic is characterized by a wide variety and richness of hydro-mineral resources represented by fresh, mineral and thermal waters.

There are also insignificant oil reserves – **7 336 thousand tons**.

SPECIALIZATION

Agriculture and food processing industry are priority sectors:

CROP FARMING

Pomes
(apple, pear, quince, etc.)

325 centners per hectare

Stone Fruits
(plum, cherry, sweet cherry, etc.)

210.1 centners per hectare

Vine plantations

191.3 centners per hectare

Gourds food crops

285.1 centners per hectare

Vegetables

192.4 centners per hectare

Cereals and legumes

57.5 centners per hectare

LIVESTOCK INVENTORY

Cattle

271.4 thousand

Meat production

76 thousand tons

Goats and sheep

393.1 thousand

Eggs production

233.8 million pieces

Poultry

352.8 thousand

Milk production

537.5 thousand tons

Wool production

1 045 tons

Honey production

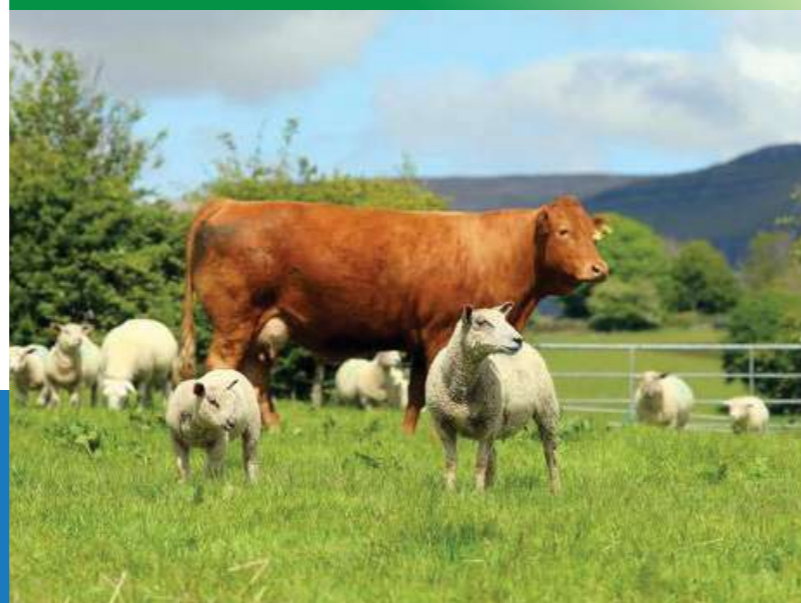

0.2 thousand tons

Also, the region is developing a reclamation complex, the construction of fruit storage facilities, and the tourist and recreational industry.

The republic is one of the leading regions of the country in terms of the rate of establishment of intensive and super-intensive perennial plantings.

The region traditionally grows apples, plums, pears, cherries and sweet cherries, peaches. Total area of orchards is **24.57 thousand hectares**

INVESTMENT ACTIVITIES

The following priority projects are being implemented (scheduled for implementation) on the territory of the Republic:

ALL-SEASON TOURISM AND RECREATION COMPLEX ELBRUS (ELBRUS ATRC)

RESUMPTION OF TUNGSTEN-MOLYBDENUM ORES MINING

CONSTRUCTION OF A GREENHOUSE COMPLEX WITH AN AREA OF MORE THAN 100 HECTARES

KARACHAY-CHERKESS
REPUBLIC

GENERAL INFORMATION

Territory: **14 300 km²**
Capital: **Cherkessk**

National composition: **Karachays, Russians, Circassians, Abaza, Nogais**
Religion: **Islam and Christianity**

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

2 cities of republican significance
10 districts
5 urban settlements
83 rural settlements

LOGISTICS INFRASTRUCTURE

The region is located at the intersection of the largest cargo flows. Of particular importance is the international "North - South" transport corridor going through Moscow, Makhachkala, Derbent, Iran, and the countries of the Persian Gulf, from the M-29 highway to Georgia.

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

Forests occupy **522.6 thousand hectares**. They cover more than 30% of the republic territory. In the southern mountainous part, up to a height of 2000 m, broad-leaved (oak, beech, hornbeam) forests grow, higher than that – coniferous (spruce, pine, fir) forests grow, followed by subalpine and alpine meadows.

WATER RESOURCES:

419 large and small rivers. The Kuban reservoir is situated in the north of the republic. About **600 lakes**, the vast majority of which are located in the highlands – more than 2,000 m above sea level.

LAND RESOURCES:

Located on the northern slope of the Greater Caucasus, the territory is divided into three parts according to the terrain: foothill plain, foothills and mountains of the Greater Caucasus. **Agricultural lands occupy 47% of the territory – 665 thousand hectares.**

MINERAL RESOURCES:

Tungsten: **109.9 thousand tons**

Copper: **972.9 thousand tons**

Zinc (Khudesskoye deposit): **515.7 thousand tons**

Coal: **8 705 thousand tons**

Inert construction materials (sands, brick-tile, expanded-clay materials) are available in large volumes and serve as a raw material base for the intensive development of the construction materials industry: **83.1 million m³**

SPECIALIZATION

The Karachay-Cherkess Republic belongs to the agrarian regions of Russia. The main priorities are:

CROP FARMING

Cereals and legumes

45.4 centners per hectare

Corn
50.2 centners per hectare

Sugar beet
397.4 centners per hectare

Stone Fruits
(plum, cherry, sweet cherry, etc.)

177.5 centners per hectare

Sunflower
21.9 centners per hectare

LIVESTOCK INVENTORY

Cattle
153.5 thousand

Poultry
1368.5 thousand

Goats & sheep
1 109.7 thousand

Wool production
1 401 tons

Meat production
30.6 thousand tons

Eggs production
83.4 million pieces

Milk production
194.8 thousand tons

Honey production
0.2 thousand tons

The main specialization and priority areas for the development of entrepreneurship in the republic are also knitwear production, ecological tourism (specially protected natural areas, wildlife sanctuaries and biosphere reserves are functioning), efficient use of the existing mineral resource base.

INVESTMENT ACTIVITIES AND TOURISM INDUSTRY

The major investment projects to be implemented in the next 6-8 years:

CONSTRUCTION AND RECONSTRUCTION OF THE ENGINEERING INFRASTRUCTURE OF THE SKI RESORT "DOMBAY"

UPGRADE OF EQUIPMENT PRODUCTION AND EXPANSION OF THE RANGE OF GYPSUM-BASED CONSTRUCTION MATERIALS IN THE KHABEZSKY DISTRICT

CONSTRUCTION OF SELECTION SEED-GROWING AND LOGISTICS CENTERS IN THE PRIKUBANSKY DISTRICT

CONSTRUCTION OF LIVESTOCK BREEDING COMPLEXES FOR OBTAINING ENVIRONMENTALLY FRIENDLY SHEEP PRODUCTS IN ALPINE MEADOWS IN THE PRIKUBANSKY, ZELENCHUKSKY, MALOKARACHAEVSKY, URUPSKY AND UST-DZHEGUTINSKY DISTRICTS

LAYING OF NEW INTENSIVE-TYPE ORCHARDS

GREEN ENERGY

HOUSING CONSTRUCTION IN CHERKESSK

THERE ARE TWO SKI RESORTS:

Ski slopes **18** Total length **27.4** km

Cable cars **8** Total length **12.4** km

18 100 persons/hour

Ski slopes **9** Total length **25** km

A network of cable cars **3 200** m Attitude **3 200** m

7 600 persons/hour

The republic records an annual increase in the tourist flow by an average of 15%. **IN 2021, 1.75 MILLION PEOPLE VISITED THE REPUBLIC.**

REPUBLIC NORTH
OSSETIA-ALANIA

GENERAL INFORMATION

Territory: **8 000 km²**
Capital: **Vladikavkaz**

National composition: **Ossetians, Russians**
Religion: **Christianity and Islam**

ADMINISTRATIVE AND TERRITORIAL STRUCTURE

8 municipal districts

LOGISTICS INFRASTRUCTURE

Two large federal highways pass through the territory of North Ossetia:

- **A-164 "TRANSKAM"**
- **P-217 "KAVKAZ"**

The republic has

EXTENSIVE RAILWAY AND ROAD SYSTEM

INTERNATIONAL AIRPORT VLADIKAVKAZ

NATURAL RESOURCES AND MINERAL RESOURCE BASE

FOREST RESOURCES

The total area of the forest fund is **236 thousand hectares**, including 193 thousand hectares of forest land, of which 190 thousand hectares are covered with forest vegetation. The main forest-forming species are oriental beech, birch, pine, hornbeam and oak.

WATER RESOURCES:

The entire river network of North Ossetia belongs to **Terek river basin**, the length of which within the republic is **169 km**. Three other large rivers are left tributaries of the Terek:

Urukh 104 km long **Ardon** 108 km long
Fiagdon 75 km long

LAND RESOURCES:

The physical and geographical boundaries of the republic are determined by the Kabardino-Sunzhensky ridge in the north, the Main and Kazbek mountain ranges in the south, and the Sungar mountain range in the west. In the north, the Mozdok steppe plain joins the main territory of the republic in a narrow strip with absolute marks of about 135 meters.

A temperate continental climate prevails in the republic. Geographically, the republic lies in the zone of a subtropical climate development. In the south it is limited by powerful mountain ranges and is significantly open to the north.

MINERAL RESERVES:

Zinc: 743.6 thousand tons **Lead**: 451.8 thousand tons
Mercury: 655 tons **Silver**: 562.8 tons

Sulfur in ore deposits, carbon for the chemical industry, cement feedstock, glass feedstock: **1 117.3 million tons**

Building stones, facing stones, expanded clay feedstock, brick and tile feedstock, pumice and volcanic ash, building sand, sand and gravel materials, roofing slate: **216.8 million m³**

Insignificant oil reserves: **3 379 thousand tons**.

SPECIALIZATION

Agriculture and food processing industry are priority sectors:

CROP FARMING

Pomes
(apple, pear, quince, etc.)

251.8 centners per hectare

Vine plantations

64.1 centners per hectare

Corn

74 centners per hectare

Gourds food crops

66.1 centners per hectare

Cereals and legumes

61.3 centners per hectare

LIVESTOCK INVENTORY

Cattle

95.9 thousand

Goats and sheep

110.9 thousand

Poultry

1554.2 thousand

Wool production

125 tons

Meat production

24.1 thousand tons

Eggs production

62.1 million pieces

Milk production

176.5 thousand tons

Honey production

0.1 thousand tons

Other developing sectors are innovative production, based on nanotechnology, tourist and recreational industry.

INVESTMENT ACTIVITIES

Two zones of priority economic development (the PED zones) have been created. For the PED zones residents, the tax burden is minimized and various types of subsidies are provided.

Five "breakthrough" areas of development with a total cost of about 1 billion USD have been identified, capable of bringing the republic to a new level of development and giving the maximum economic effect.

CONSTRUCTION OF THE ALL-SEASON TOURIST AND RECREATIONAL COMPLEX "MAMISON"

CREATION OF A TROUT FARM

DEVELOPMENT OF THE AGRO-INDUSTRIAL COMPLEX

TRANSPORT AND LOGISTICS SECTOR

NEW TOURIST DESTINATIONS.

INFO@EXPORTCENTER.RU

EXPORTCENTER.RU

NORTH CAUCASUS INSTITUTES OF DEVELOPMENT

Russian Export Center JSC (REC) is a State-owned development institute established by the Government to support the development of the non-commodity exports industry/sector.

REC OFFERS A WIDE RANGE OF FINANCIAL AND NON-FINANCIAL SUPPORT TOOLS IN ORDER TO HELP FOREIGN BUYERS PURCHASE NON-COMMODITY GOODS IN RUSSIA.

REC also acts as a focal point for interaction with the relevant domestic ministries and agencies and cooperates with key industries and business players in Russia to improve the export conditions in Russia and help bypass trade barriers.

SEARCH FOR RUSSIAN SUPPLIERS UPON THE REQUEST OF A FOREIGN COUNTERPARTY

REC is responsible for finding Russian suppliers of goods and services via multiple promotion channels. Suitable Russian companies are selected and presented to the client based on their request.

Regional REC Offices and Export Support Centers are involved in the process of finding a Russian supplier. They contact representatives of Russian companies, analyze their interest in the received request, and provide contact information for further communication.

DOCUMENTS AND REQUIREMENTS:

- Application form from a foreign company
- Additional information materials (optional)

RESULT:

With the service provided, a Russian company is able to negotiate with the interested foreign buyer and discuss the terms of any potential supply.

Term of service provision
20 working days

Price
FREE OF CHARGE

DIRECT LOAN TO A FOREIGN BUYER

This product package is intended to provide foreign buyers with the ability to finance their obligations to pay under an export contract, if such financing is a prerequisite for conclusion and implementation of the export contract and/or allows to make the products (works, services) offered by a Russian exporter more competitive.

The loan product allows financing of an export contract (export project) in the event that a foreign buyer is not able to cover the costs thereof out of its own funds or available lending resources, or if lending terms in the country of residence are less attractive for the borrower.

DOCUMENTS AND REQUIREMENTS:

An export contract and other agreements and permits, as provided in the export contract, are signed and come into effect. The exporter opens an account with EXIMBANK OF RUSSIA, JSC.

The exporter opens a transaction certificate under an export contract to be financed with EXIMBANK OF RUSSIA, JSC or transfers the transaction certificate to EXIMBANK OF RUSSIA, JSC. The foreign buyer (borrower) opens an account with EXIMBANK OF RUSSIA, JSC (provided there are no restrictions imposed by the laws of the country of the foreign buyer).

Amount of financing Up to **85%** of the contract price
Loan period Up to **12** years

Currency of financing is **RUB** and national currencies

FREE SALE CERTIFICATE

Free sale certificates are usually requested by the foreign buyers and counterparties operating in the countries with no comprehensive regulatory policy.

Free sale certificate confirms that the exporter's products have been manufactured in Russia and are admitted to free distribution domestically under Russian laws.

Free sale certificate does not assess compliance of goods with regulatory requirements of the Russian Federation.

DOCUMENTS AND REQUIREMENTS:

- Application request (for offline requests)
- Copy of the product conformity assessment document
- Copy of the manufacturing license (if applicable)
- Copies of other documents required by the law of the Russian Federation for free distribution of the product (if applicable)

Term of service provision: **10** working days maximum for online requests **20** working days maximum for offline requests

Price
FREE OF CHARGE

LOAN TO A FOREIGN BUYER'S BANK

- The Borrower is granted a loan for further financing of payment for products (works, services) under an Export Contract.

- The Borrower is granted a loan for further financing of costs in the country of the foreign buyer (Local Costs) that are necessary for the execution of an Export Contract or implementation of a project, of which the Export Contract is a part.

- The Borrower is granted a loan for further refinancing (reimbursement) of the costs previously incurred by a foreign buyer to pay for products (works, services) under an Export Contract.

- The Borrower is granted a loan for further refinancing of loans previously granted by the Borrower for financing of payment for products (works, services) supplied under an Export Contract.

ADVANCE PAYMENT GUARANTEE

This guarantee secures the fulfillment of the Principal's (Exporter's) obligations to refund the advance payment received earlier from the Buyer if a contract for the supply of products (works, services) is not performed.

The Principal obtains an advance payment guarantee for an export contract, which secures performance of the Principal's (Exporter's) obligations to a foreign buyer (ultimate Beneficiary) to refund the advance payment if the Principal fails to perform its obligations to supply non-resource products (services).

DOCUMENTS AND REQUIREMENTS:

- A set of documents must be submitted (available online).
- The company is a resident of the Russian Federation
- Request for interbank loan

Financing is provided by granting a targeted/tied interbank loan intended to be granted to a buyer for payment under a signed export contract with an exporter

Amount of financing **100%** of the Export Contract price
Limitations Max. **15** years for

Currency of financing is **RUB** and national currencies

DOCUMENTS AND REQUIREMENTS:

- A set of documents must be submitted (available online).
- Period of operation: at least 24 months.

Collateral to be provided:

- Cash collateral
- Pledged property (real property, equipment, vehicles, material assets, etc.)
- A guarantee from the owners of the Principal
- A guarantee from a third party
- A guarantee issued by another bank
- Other types of security that are acceptable for the bank

Amount of financing: Equal to the amount of the advance payment received by the Principal
Service: Provided on an individual basis

Currency of financing is **RUB** and national currencies

CAUCASUS.RF JSC

Caucasus.RF is a company that manages the special economic zones of the North Caucasus. The main goals of the Caucasus.RF are the promotion of the SEZ in the domestic and world markets and profit generation, the formation of an investment-attractive environment in the North Caucasus together with government authorities and the business community, and the promotion of the socio-economic development of the macroregion.

ncrc.ru

The company creates infrastructure for the functioning of special economic zones, manages and operates the facilities built there, attracts investments and provides services to residents.

In addition, it participates in achieving national goals and solving strategic tasks for the development of the North Caucasus until 2030 and in implementing projects for the economic development of the region, creates conditions for attracting investments, developing tourism, protecting nature and the environment.
